

## Project Initialization and Planning Phase

Date	20 august 2025
Team ID	Sneha S
Project Name	Mushroom
Maximum Marks	3 Marks

### Define Problem Statements (Customer Problem Statement Template):

I am a researcher (customer).

I'm trying to classify mushrooms as edible or poisonous from images.

But it is difficult to manually identify mushrooms because many look similar.

Because of this, mushroom foragers and food researchers risk health and safety.

Which makes me feel unsafe and unsure about wild mushroom consumption.

<b>I am</b>	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
<b>I'm trying to</b>	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
<b>but</b>	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
<b>because</b>	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
<b>which makes me feel</b>	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

### Example:

<b>I am</b> a traveler	<b>I'm trying to</b> book flights on my phone	<b>but</b> it takes a long time	<b>Because</b> The website is not responsive and doesn't have a mobile version	<b>Which makes me feel</b> Frustrated
---------------------------	--	------------------------------------	---	--

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	I am a researcher (customer).	I'm trying to classify mushrooms as edible or poisonous	But it is difficult to manual	Because of this, mushroom foragers and food	Which makes me feel unsafe and unsure about wild mushroom consumption.

		from images	ly identif y mushro oms becaus e many look similar.	researcher s risk health and safety.
